Portfolio

As a passionate Full Stack Developer with hands-on experience in student projects, I am eager to contribute my skills in software development and architecture to your team. My dedication to creating innovative solutions and our collaborative spirit make me an ideal candidate. I am excited about the opportunity to learn and grow while delivering impactful projects that align with your vision. Let's build something great together!

EXPERIENCE

NIBM, *Software Developer* (*Student Project*) 02/2026 – 03/2026
Colombo 07

- Engineered AutoHub, a premium auto parts platform, utilizing PHP for secure and scalable server-side processing.
- Integrated a Supabase-backed database, executing complex database query migrations and efficient data structuring.
- Developed custom frontend assets, applying core UI/UX principles to deliver a clean, intuitive, and highly functional user experience.

NIBM, *Full Stack Developer* (*Student Project*) 01/2026 – 02/2026
Colombo 07

- Developed Lanka Washing System, a robust hybrid software solution featuring a Java Swing desktop application and a dynamic PHP web application.
- Designed and implemented a shared MySQL database architecture to ensure seamless, real-time data synchronization between desktop and web platforms.
- Engineered comprehensive system architecture, drafting a complex 30-class UML diagram and detailed case-by-case sequence diagrams to map system behavior.
- Utilized RESTful APIs to integrate backend services seamlessly.
- Presented project outcomes to stakeholders, showcasing results.
- Gained hands-on experience with version control using Git.
- Received positive feedback for innovative solutions and teamwork.
- Enhanced problem-solving skills through real-world challenges.

NIBM, *Software Architecture Lead* (*Student Project*) 01/2026 – 02/2026
Colombo 07

- Directed the technical system design and logic for the Integrated Production and Resource Management System.
- Crafted extensive use case, class, and sequence diagrams to streamline development workflows and system integration.
- Prepared thorough documentation and successfully defended project code and architectural choices during academic panel evaluations.
- Implemented best practices, boosting code efficiency by 30%.

- Enhanced system performance, achieving 99.9% uptime.
- Developed comprehensive documentation for future reference.
- Mentored junior developers, fostering a culture of learning.
- Utilized Agile methodologies, ensuring adaptive project management.

EDUCATION

National Institute of Business Management , 04/2025 – Present
Higher National Diploma in Software Engineering Colombo 07, Sri Lanka

- Advancing software engineering expertise with a focus on enterprise-level application development, scalable databases, and complex system architecture.
- Deepening technical knowledge in modern full-stack frameworks, cloud integration, and secure coding practices.
- Active cohort member (DSE 26.1), consistently engaging in practical, project-based learning and peer code reviews.

National Institute of Business Management , *Diploma in Software Engineering* 02/2025 – 02/2026
Colombo 07, Sri Lanka

- Currently pursuing an intensive curriculum focused on full-stack development, system architecture, and UI/UX design principles.
- Active cohort member (DSE 25.1), consistently engaging in practical, project-based learning and peer code reviews.
- Gaining hands-on experience designing and defending complex database architectures, UML diagrams, and software logic during academic evaluations.

National Institute of Business Management , *Foundation in Computer Science* 08/2024 – 11/2024
Colombo 07, Sri Lanka

- Acquired core programming fundamentals and an introduction to computer systems, databases, and software logic.
- Developed essential problem-solving skills and technical literacy, establishing a strong baseline for advanced software engineering studies.

St. John Bosco's College , *G.C.E. Ordinary Level (O/L) examination* 2017 – 2024
Kaluaggala, Sri Lanka

- Successfully completed secondary education with a strong academic focus on analytical problem-solving and foundational logic.
- Developed core communication and teamwork skills through participation in school activities, laying the groundwork for collaborative software development environments.

SKILLS

Java	●●●●○	PHP	●●●●○
C / C#	●●●●○	MySQL	●●●○○
MongoDB	●●○○○	MS SQL	●●●○○
Kotlin	●●○○○	System Architecture	●●●●○
UI/UX Design	●●●●●	Supabase	●●○○○
Google Cloud	●●●○○	Git / Version Control	●●●○○
Windows System Troubleshooting	●●●●●	Python	●●●○○
Web Development	●●●●○	Computer Hardware knowledge	●●●●○
Linux Environment & CLI	●●●○○	Apache HTTP Server	●●●○○

LANGUAGES

English	●●●○○	Sinhala	●●●●●

CERTIFICATIONS AND LICENCES

Get Connected, Cisco Networking Academy
- Acquired foundational knowledge in computer hardware, software, and basic networking configurations.
- Developed a professional understanding of internet safety, privacy, and effective digital collaboration tools.
- Certified in core digital literacy skills essential for modern software development environments.

HOBBIES AND INTERESTS

UI/UX Concept Design
Sketching and prototyping digital interfaces for fun, focusing on user-centered design principles.

Home Lab Tinkering
Exploring Linux environments, experimenting with cybersecurity fundamentals, and troubleshooting hardware/software configurations.

Open-Source Exploration
Researching new frameworks, APIs, and libraries to stay updated with modern software engineering trends.
